# Call for Price for Magento 2
# **User Guide**

# Table of Contents

# 1. Call for Price Configuration

Once you are finished with installing the extension it is time to proceed to your Magento 2 backend to finalize the Call for Price setup.

Before start using the extension, we suggest running through the Call for Price extension settings and other options available to adjust the settings. This will help in better understanding of how the extension functions and what can you expect the "Call For Price" to look and feel like.

# 1.1. Accessing the Extension Main Settings

To access the configuration settings for this extension, go to **Stores > Configuration > Ulmod Extensions > Call For Price.**

# 1.2.  General
