1. Product Attachments Configuration

Once you are finished with installing the extension it is time to proceed to your Magento 2 backend to finalize the Product Attachments setup.

Before start using product attachments we suggest running through the extension settings and other options available to adjust the settings. This will help in better understanding of how the extension functions and what can you expect your product attachment to look and feel like.

1.1. Accessing the Extension Main Settings

The screenshot shows the Ulmod admin interface. On the left is a dark sidebar menu with the following items: Dashboard, Sales, Products, Customers, Marketing, Content, Reports, Stores (highlighted), System, and Find Partners & Extensions. The main content area is titled 'Stores' and has a sub-menu with 'Attributes', 'Product', 'Attribute Set', and 'Rating'. Below this is a 'Reload Data' button. A table displays configuration data with columns for 'Tax', 'Shipping', and 'Quantity'. A callout box with a white border and black background contains the text: 'To access the configuration settings for this extension, go to Stores > Configuration > Ulmod Extensions > Product Attachments.'

	Tax	Shipping	Quantity
	\$0.00	\$0.00	0
			Quantity
			4
messenger Bag		\$45.00	4
boulder Tote		\$24.00	2
Fitness IV		\$14.00	1
Weather Tank-L-Gray		\$22.00	1
