1. Newsletter Popup Configuration

Once you are finished with installing the extension it is time to proceed to your Magento 2 backend to finalize the Newsletter Popup setup.

Before start using the extension we suggest running through the Newsletter Popup extension settings and other options available to adjust the settings. This will help in better understanding of how the extension functions and what can you expect your newsletter popup to look and feel like.

1.1. Accessing the Extension Main Settings

To access the configuration settings for this extension, go to **Stores > Configuration > Ulmod Extensions > Newsletter Popup.**
