# 1.1. Accessing the Extension Main Settings

The screenshot shows the Ulmod admin interface. On the left is a dark sidebar menu with the following items: Stores (highlighted), Settings, Attributes, All Stores, Product, Configuration, Attribute Set, Terms and Conditions, Rating, Order Status, Taxes, Tax Rules, Tax Zones and Rates, Currency, Currency Rates, Currency Symbols, and FIND PARTNERS & EXTENSIONS. The main content area is partially visible, showing a 'Tax' section with a list of items including 'Messenger Bag', 'Boulder Tote', 'Fitness IV', and 'Weather Tank-L-Gray'. A callout box is overlaid on the right side of the screen.

**To access all configuration settings for this extension, go to **Stores > Configuration > Ulmod Extensions > SEO Advanced Breadcrumbs.****

## 1.2. Product Pages

Set 'Yes' to enable the Advanced Breadcrumbs for product page and override the default Magento Breadcrumbs.

Enable For Product Page  
[store view]

Yes

If 'Yes' the breadcrumbs will be added on the product page and override the default Magento breadcrumbs

Breadcrumbs Type  
[store view]

Use Longest

Use Category Priority For Breadcrumbs?  
[store view]

No

If 'Yes', the priority of the categories set under the **MARKETING → SEO Advanced Breadcrumbs by Ulmod → Breadcrumbs Priority for Category** setting will be used to select the breadcrumbs

Enable Rich Snippets For Breadcrumbs  
[store view]

Yes

If 'Yes' the structured data markup for breadcrumbs will be added

Specify the breadcrumbs type:

- 'Default' to use the default Magento breadcrumbs;
- 'Use shortest' to activate the shorten version of the breadcrumbs;
- 'Use longest' to activate the full version of the breadcrumbs

Set **Use Category Priority For Breadcrumbs?** Field to 'Yes', to use the priority of the categories to select the breadcrumbs.

The breadcrumbs priority for categories can be set under the **MARKETING → SEO Advanced Breadcrumbs by Ulmod → Breadcrumbs Priority for Category** setting. This functionality is useful when a product is assigned to multiple categories.

**Enable Rich Snippets For Breadcrumbs:** If 'Yes' the structured data markup for breadcrumbs will be added to the product page to show rich snippets for breadcrumbs in search results

## 2. Advanced Breadcrumbs Management

### **Breadcrumb Priority for Category**

The extension allows you to manage all the breadcrumb priority for category in the admin panel, on a clear and flexible interface.

To view, or modify breadcrumb priority for the category, please go to **“Marketing → SEO Advanced Breadcrumbs by UImod → Breadcrumbs Priority for Category”** A convenient grid displays all your priorities. Discover mass actions to manage your entries faster.

## 2.1. Managing Breadcrumb Priority for Category

### SEO Advanced Breadcrumbs

You can configure the categories priority to use for breadcrumbs on product page under **Ulmod – SEO Advanced Breadcrumb - Manage Breadcrumbs Priority for Category** setting. This functionality is useful when a product is assigned to multiple categories.

Actions 38 records found (1 selected)

ID	Path	Level	Category Name	Status		
<input type="checkbox"/>	3	1/2/3	2	Gear	Enabled	
<input type="checkbox"/>	4	1/2/3/4	3	Bags	Enabled	
<input type="checkbox"/>	5	1/2/3/5	3	Fitness Equipment	Enabled	
<input type="checkbox"/>	6	1/2/3/6	3	Watches	Enabled	
<input type="checkbox"/>	7	1/2/7	2	Collections	20	Enabled
<input checked="" type="checkbox"/>	8	1/2/7/8	3	New Luma Yoga Collection	<input type="text" value="29"/>	Enabled
<input type="checkbox"/>	9	1/2/9	2	Training	Enabled	
<input type="checkbox"/>	10	1/2/9/10	3	Video Download	Enabled	
<input type="checkbox"/>	11	1/2/11	Enabled			

6 out of 6 visible 100 per page

ID  Path  Level  Status  
 Category Name  Breadcrumbs Prio...  Status

[Reset](#) [Cancel](#)

[Cancel](#) [Save](#)

On this convenient grid, you can manage all the breadcrumb priority for category :

- 'Edit the existing ones or delete the ones you no longer need.'
- 'Modify breadcrumb priority.'
- 'Mass edit the selected breadcrumb priorities'
