1. Social Follow Configuration

Once you are finished with installing the extension it is time to proceed to your Magento 2 backend to finalize the Social Follow setup.

Before start using the extension we suggest running through the Social Follow extension settings and other options available to adjust the settings. This will help in better understanding of how the extension functions and what can you expect your social follow to look and feel like.

1.1. Accessing the Extension Main Settings

The screenshot displays the Ulmod admin interface. On the left is a dark sidebar with a vertical menu. The 'Stores' section is expanded, showing sub-items: Settings, All Stores, Configuration, Terms and Conditions, Order Status, Taxes, Tax Rules, Tax Zones and Rates, Currency, Currency Rates, and Currency Symbols. The 'Configuration' item is highlighted. The main content area shows a search bar, a notification bell, and a user profile 'admin'. Below this is a 'Reload Data' button. A table with columns 'Tax', 'Shipping', and 'Quantity' is partially visible. A callout box with a white border and a black background contains the following text:

To access the configuration settings for this extension, please go to **Stores > Configuration > Ulmod Extensions > Social Follow**

Tax	Shipping	Quantity
Track Tote	\$32.00	4
Messenger Bag	\$45.00	4
Boulder Tote	\$24.00	2
Fitness IV	\$14.00	1
Weather Tank-L-Gray	\$22.00	1
