Google reCAPTCHA for Magento 2
User Guide

Table of Contents

1. Configuration

Once you are finished with installing the extension it is time to proceed to your Magento 2 backend to finalize the reCAPTCHA setup.
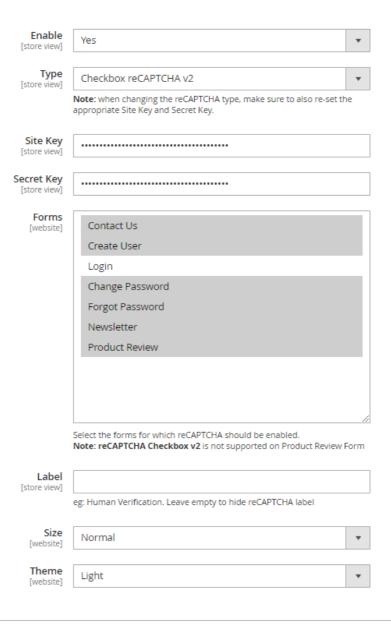

Before start using the extension we suggest running through the reCAPTCHA extension settings and other options available to adjust the settings. This will help in better understanding of how the extension functions and what can you expect your reCAPTCHA look and feel like.

1.1. Accessing the Extension Main Settings

To access the configuration settings for this extension, please go to **Stores > Configuration > Ulmod Extensions > Google reCAPTCHA**

1.2.1. General – Checkbox reCAPTCHA v2

General

Enable
[store view]
