# 1. Product Slider Configuration

Save Config

Set to "Yes" to enable the extension in the storefront or "No" to disable

General

**Product Slider**

Showcase your new(latest), best seller, most viewed, sale, featured or auto related products in the most vivid and interactive way and drive more of your visitors' attention to your best and most profitable products in your store.

If you have any questions, email us at [support@ulmod.com](mailto:support@ulmod.com).

Enable  
[store view]

Yes

▼

If Yes, the extension will be enabled on the frontend

For more flexibility, use a CMS template tag, Template code or Layout XML code to display product slider to any page or static block.

## 1.2. Code Insert

### Code Inserts Guide

For more flexibility on where to place productslider you can use a CMS template tag, template code or Layout XML code to add this productslider to any page or static block.

#### **Template Code (template file)**

Copy code from below to the template file (between php tags) and replace custom\_slider\_id with proper slider id

```
echo $this->getLayout()->createBlock("Ulmod\Productslider\Block\Slider\Items")->setSliderId("custom_slider_id")->toHtml();
```

#### **CMS Template Tag (content editor)**

Copy code from below to the CMS page or block and replace custom\_slider\_id with proper slider id

```
{{block class="Ulmod\Productslider\Block\Slider\Items" slider_id="custom_slider_id"}}
```

#### **XML Code (layout xml code)**

Copy code from below to the layout XML file and replace custom\_slider\_id with proper slider id

```
<block class="Ulmod\Productslider\Block\Slider\Items">  
  <action method="setSliderId">  
    <argument name="sliderId" xsi:type="string">your_slider_id</argument>  
  </action>  
</block>
```

## 2. Managing Product Sliders

To view and manage all your sliders, please go to **“CONTENT - Product Slider by Ulmod - Product sliders”**

To create a new slider, hit the **Add New Slider** button.

Create New Slider
