3. Support

1. Scroll To Top Configuration

Once you are finished with installing the extension, it is time to proceed to your Magento 2 backend to finalise the Smooth Scroll setup.

Before using the extension, we suggest running through the Smooth Scroll extension settings and other options available to adjust the settings. It will help in better understanding of how the extension functions and what can you expect your Smooth Scroll look and feel like.

1.1. Accessing the Extension Main Settings

The screenshot shows the Ulmod extension settings page. On the left is a dark sidebar with a vertical menu. The 'STORES' section is highlighted. The main content area on the right has a top bar with a search icon, a bell icon, and a user profile 'admin'. Below this is a 'Reload Data' button. The main content area contains a table with columns for 'Tax', 'Shipping', and 'Quantity'. A callout box is overlaid on the table, providing instructions on how to access the configuration settings.

Stores

- Settings
 - Attributes
 - Product
 - Attribute Set
 - Rating
- All Stores
- Configuration
- Terms and Conditions
- Order Status
- Taxes
 - Tax Rules
 - Tax Zones and Rates
- Currency
 - Currency Rates
 - Currency Symbols

Callout Box:

To access the configuration settings for this extension, please go to **Stores > Configuration > Ulmod Extensions > Smooth Scroll**.

Tax	Shipping	Quantity
\$0.00	\$0.00	0
		Quantity
		4
		4
		2
